

TEENS NEED FOSTER HOMES TOO!

It's tough enough these days to be a teen, especially when you're thrown into the world before you are ready. Teens need positive role models so they can become our future leaders. By caring for just *one* teen, you can build character, self-esteem and the importance of family. Every teen needs someone to guide them into making good choices.

That someone could be YOU!

DO YOU . . .
Have a sense of humor?
Care about your future?
Enjoy the challenge of teenhood?
. . . **WE NEED YOU!**

As a foster parent for teens, you receive up to \$1500 per month for the care of each youth. In addition to ongoing support by your own foster care consultant, you and your teen will participate in the Life Skills Program. Your foster youth may even qualify for funding for college! By helping even one teen, you can make a difference in our community.
