(motion)
I move to increase expenditures by $9,000 for the Parks Intern program and include the following language in the appropriations resolution: "The budget includes a total of $29,000 for the Parks Intern program. The Land and Water Resource Department is not authorized to use the last $9,000 of this expenditure authority until it is apparent that additional revenue from zoning citations and work study will be sufficient to offset the expenditures."

Intent/Justification

This amendment increases expenditures for the Parks intern program by $9,000. This additional funding is being supported by an increase in the County's share of the zoning citation ($4,000) and by a new revenue line for work study revenue ($5,000). The additional $9,000 included in this amendment can only be accessed if it is apparent that those revenues will be realized.

NET TAX LEVY EFFECT: $9,000
(motion) I move to increase revenue by $4,000 in the Zoning and Land Regulation Division to represent an increase of $150 in the County's share of zoning citation revenue; in addition, increase revenue by $5,000 in the Parks Operations Division for work study funding.

**Intent/Justification**

This amendment increases revenues to fund an enhancement of the Parks Intern program. The additional $9,000 in spending authority supported by this revenue will not be released until it is apparent that these revenues will materialize. The increase in zoning citation revenue assumes that the County share of the citation will increase from $50 to $150 through an ordinance amendment and that the Zoning Division will increase enforcement activities. According to a survey completed by the Zoning Administrator, seven counties with populations over 100,000 have zoning citation authority. All of those counties have established the County share of their zoning citations at $100 or more. Four of those counties have set the County share of the zoning citation at $200 or more. The amendment also includes revenue from work study in anticipation that some of the interns hired for the Parks Intern program will qualify for financial aid in the form of work study.

Intent/Justification
Under the consolidation that created the Department of Land and Water Resources, the management contract position of Parks Director was eliminated, and the position of Operations Manager was retitled to Parks Director. Effective January 1, 2005, this amendment restores the position authority that was lost when the management contract position was eliminated and creates a position titled Assistant Parks Director. The Department of Administration will complete a classification study to determine the appropriate management/professional range for both the Parks Director position and the Assistant Parks Director position. However, the range of the Assistant Parks Director will not be less than M-8. The Assistant Parks Director position will remain vacant until sufficient funding becomes available.

**Intent/Justification**

A federal agency will no longer be leasing space in the Lyman F. Anderson Agriculture and Land Conservation Building in 2005. With the merger of the Land Conservation and Parks Departments, staff from Parks will move in to the building. Most of the space will be used by county departments, and the building expenses and revenue should be in the Department of Administration, Division of Facilities Management rather than in the UW-Extension budget.

Intent/Justification

In 2005, a federal agency, Rural Development, will no longer rent space in the Lyman F. Anderson Agriculture and Land Conservation building, which reduces revenue for the building by $17,144. With the merger of the Land Conservation and Parks Departments, staff from Parks will move in to the building. Most of the space will be used by county departments, and the building expenses and revenue should be in the Department of Administration, Division of Facilities Management. The increase of $17,200 in the levy replaces revenue for the lease of space once paid by Rural Development.

I move that
Neither revenues nor expenditures be changed and the following provision be added to Res. 175, 2004-05, 2005 Dane County Operating Budget Appropriations Resolution:

"Since the additional elder abuse counselor position does not begin until April of 2005, the Human Services Department shall continue the services of the two LTEs now hired until April. After the new counselor is hired, staff shall closely monitor the results of having an additional full time counselor. In July, staff will report to the AAA Board and the HHN Committee on these results and the current status of services to elder abuse clients."

Intent/Justification

The 2005 proposed budget includes funding for 17 Youth Resource Centers. Fifteen centers are recommended to receive continued funding at 2004 amounts ($7,140 for 14 centers and $7,129 for one center). Two centers are recommended for funding reductions: Deerfield Youth Resource Center funding would be reduced from $10,300 to $9,246; Stoughton Youth Resource Center funding would be reduced from $17,300 to $13,913. For the past several years Dane County has provided funding to 17 middle school Youth Resource Centers. Services provided at these centers include tutoring, job training, recreational and sports programs, and community volunteer projects. On average, county funding is 16% of center budgets. Since 2000 the estimated total number of youth attending one of these centers has increased from less than 5,000 to almost 8,000. During this time the number of adult volunteer hours per center has increased from 260 hours to 711 hours per year.

Intent/Justification

This amendment increases revenue for civil process services through an hourly rate adjustment for evictions and a flat fee increase for serving papers. The revenue adjustment is based on the hourly rate for evictions increasing to $40.25 per hour which represents a blended hourly rate for Deputy I-II's and Deputy III's that are involved in providing this service. This rate increase represents a $4,600 revenue increase.

The flat service fee has not been increased since 1994. This revenue adjustment is based on increasing that flat fee from $30 to $40 and reducing the volume of papers served by 10% to allow for some consumer movement to other agencies. This adjustment would raise $65,600.

Intent/Justification

I move that
Neither revenues nor expenditures be changed and the following provision in Res. 175, 2004-05, 2005 Dane County Operating Budget Appropriations Resolution be modified as follows:

Insert the following sentence into the provision specifying goals of the study of County garages so it reads as follows: “The goal of the study will be to maintain or improve service delivery and efficiency while reducing the number of independent facilities that the County owns, operates, and maintains. The study should evaluate the condition of each of the facilities in terms of any repairs that may be recommended in the next three to five years and current operating costs. The study should also provide recommendations on consolidations opportunities and estimate the value of any facility that may be abandoned because of consolidation. For consolidations that are recommended, the study should also illustrate how alternative deployment and service routes can be devised to maintain or improve responsiveness. The study should also evaluate if new facilities are needed for more efficient operations or existing facilities need to be expanded. This study should be completed by May 1, 2005.

Intent/Justification
An analysis of how to maintain or improve service delivery and efficiency should include an evaluation of whether new or expanded facilities are necessary.

Intent/Justification
In 2004, $30,000 was included in the budget for outreach activities to implement the public participation plan for the comprehensive planning process. The Outreach fund has been used for room rental charges, advertisement for the milestone meeting, direct mailings, and the survey. While the public participation plan for the Comprehensive Plan envisions continued meetings of the work groups, as well as focus groups to reach under-represented groups such as the elderly, minority populations, and youth, the proposed 2005 budget allocates no funds for this purpose. The amendment provides $5,000 for the Comprehensive Planning Outreach Fund.

Intent/Justification

This amendment transfers an incumbent Planner into a Senior Planner vacancy. The Planner is currently funded with Comprehensive Planning grant money which will be exhausted by the end of 2005. This transfer insures that the incumbent of the Planner position will not be laid off when the grant funds are exhausted. The majority of the Senior Planner position will continue to be funded using Comprehensive Planning grant funds. However, the increase of $5,500 that will occur as a result of the promotion from Planner to Senior Planner will be absorbed by salary savings in the Community Analysis and Planning where an employee was budgeted at full time but is not currently working full time. This amendment preserves the option for the employee in Community Analysis and Planning to increase to full time status mid-year, and the Planning Director has expressed an interest in preserving this option to continue to complete the demographic and census responsibilities of former RPC staff.

Intent/Justification

Dane County faces increasing child abuse cases. Safe Harbor provides services for interviewing alleged victims on video tape and training law enforcement personnel in detection, intervention and interview techniques. Current practice involves “borrowing” staff from other agencies as needed. This leads to delayed interviews and lost opportunities to intervene in suspected abuse situations. The new position would direct interviewing, training & education. 50% of time expected to be spent on interviewing children. 50% of time on training law enforcement and human service professionals to ensure that they are adequately prepared to interview children in the field regarding allegations of child abuse. This would relieve staff pressure on DCHS Child Protective Services and other agencies.

Intent/Justification

The Public Protection and Judiciary Committee and Personnel and Finance Committee both adopted amendment PP&J #10, which deleted a footnote on the Budgeted Positions schedule which directed the Sheriff’s Office to convert the first Lieutenant vacancy to a fiscal services position at range M 11. There is also a provision in Res. 175 which has the same language directing the conversion. Intent/Justification

Funds were added to the Department of Administration for "Research Consulting" for various studies. Most of the staffing and research for studies included in the county budget can be provided by the departments and staff teams which are involved in the various projects. Some of the funds should be used to increase the amount budgeted for audits and program reviews conducted for the County Board.

the provision in the operating budget resolution requiring the Sheriff's Office to provide $25,000 in phone cards to eligible jail inmates be deleted.

Intent/Justification

The County Board approved a new agreement for telephone services to jail inmates on September 23, 2004. At that time, an amendment was offered to include a program providing $25,000 in phone cards to inmates, but it was defeated. Since the board has already defeated this proposal, it should not be included in the budget.

I move that

neither expenditure or revenues be changed and that the provision in the operating budget resolution (Res. 175, 2004-2005) regarding a study of weapons screening be deleted and replaced by the following:

"The Department of Administration shall complete a study of workplace safety, including the use of weapons screening, in County facilities. The study shall be guided by an oversight committee consisting of the County Executive or designee, the Chief Judge or designee, the County Board Chair or designee, the Mayor of the City of Madison or designee, a representative from one of the bargaining units that represent employees in the City-County Building and/or the new Courthouse, the County and City co-chairs of the City-County Liaison Committee, and two citizen members appointed by the County Executive. The study should determine how to implement weapons screening and any other methods to enhance workplace safety in the new courthouse, and further examine the extent to which weapon screening should or should not be retained in the City-County Building as part of an overall plan for workplace safety in county facilities. The final report of the study should include a recommendation for the resources necessary to implement the appropriate levels of workplace safety. The study should be completed by July 1, 2005."

Intent/Justification

This amendment modifies the provision in the County Executive's recommended budget by: expanding the scope of the study to include methods of enhancing workplace safety in addition to weapons screening; expanding the membership of the oversight committee to include the co-chairs of the City County Liaison Committee (one county board supervisor and one member of the Madison Common Council, which has oversight of City County Building operations; clarifying that weapons screening shall be implemented in the new courthouse; and by not restricting the recommendations of the report with regard to the resources necessary to provide for workplace safety.

Intent/Justification:

This amendment decreases expenditures for computer replacements in the Division of Information Management. The 2005 base budget included $150,000 for computer replacements. The Department recommended reallocating $50,000 to compensate for expenditure increases elsewhere in the Information Management budget. The Executive’s budget restored that reallocation and added an additional $50,000 to restore this line item to its 2003 level. This amendment reduces the County Executive's restoration by $41,996 leaving a total of approximately $158,000 for 2005.

Intent/Justification

During 2004, the Airport conducted two separate two-month long noise audits, using a methodology that had been verified by an independent noise abatement consultant. The Airport was able to complete these studies internally. This provision directs the Airport to build on the work completed in 2004, and to complete a 12-month audit in 2005, using the same methodology. Intent/Justification

This amendment delays the start date for three of the five Janitor positions for the Justice Center. The start date for two of the Janitors is delayed by one period and the start date for the third Janitor is delayed by two pay periods. The Chief Judge has informed the Personnel and Finance Committee that staff will not move into the new courthouse until November 15, 2005. As a result, this hiring delay will allow sufficient training time.

Intent/Justification

The new contract for jail inmate telephone service provides that the vendor will provide the County with $100,000 in phone cards for inmate calling free of charge for each year of the contract. Res. 175, 2004-2005 contained the above language. Amendment Misc-13 deleted this language. This amendment restores the original language to Res. 175, 2004-2005.

**Intent/Justification**

This custody control/holding center consists of eight holding areas designed to hold 50 inmates, four attorney visitation booths, and electronic systems (camera, door and alarm) to control all security cell doors, hallways / tunnels, and elevators to the court floors. The Sheriff Aide assigned to this area will check in attorneys and professional visitors. They will control access to the secured area, monitor and operate door controls in the secured tunnels from the PSB, operate individual cell doors and operate the secure elevators to the court floors. One Sheriff Aide will staff this position from 8:00 AM until 5:00 PM Monday through Friday.

The Deputy Sheriff assigned to this area will manage and monitor the activities of the inmates held in the custody holding areas. They will escort inmates to attorney visitation booths and will also move inmates to one of two secure elevators where they will be brought to the court floors. Once on the court floor, bailiff staff will move them directly to the courtroom for their appearance, or they will be placed in a temporary holding cell located adjacent to each courtroom. Cameras / intercoms in these holding cells are monitored by the sheriff aide in the custody control. One Deputy will be assigned to custody control area Monday through Friday on first shift from 8:00 AM until 5:00 PM.

Intent/Justification
Dane County faces increasing child abuse cases. Safe Harbor provides services for interviewing alleged victims on video tape and training law enforcement personnel in detection, intervention and interview techniques. Current practice involves "borrowing" staff from other agencies as needed. This leads to delayed interviews and lost opportunities to intervene in suspected abuse situations. The new position would direct interviewing, training & education. 50% of time expected to be spent on interviewing children. 50% of time on training law enforcement and human service professionals to ensure that they are adequately prepared to interview children in the field regarding allegations of child abuse. This would relieve staff pressure on DCHS and other agencies. Amendment Misc-1 added $38,650, this amendments brings total funding to $50,000.

Intent/Justification

Madison City Channel provides coverage of regular county board meetings and, to the extent possible, special county board meetings such as committee of the whole meetings and budget deliberations. Coverage is dependent on several factors, including availability of production staff and commitments to other programming. The County Board pays for coverage of certain of the meetings. This amendment would provide additional funding to pay for coverage.
