A recently completed audit of the Department of Planning and Development identified several areas for improvement. One building block to improving managerial effectiveness is basic process mapping, focusing on the zoning division. Staff are over-committed and it is unreasonable to believe this work could be accomplished in a timely manner in-house. The approximate \$5,000 in carry forward and \$10,000 from the Good Growth fund should pay for a consultant to complete this work.

When DCDC began in 1996, 83% of participants were charged with either possession of controlled substance or possession of drug paraphernalia, offenses which would not result in a great deal of jail time. In 2004, that total was down to 63%. As law enforcement confidence in DCDC has increased far more serious charges have replaced those low level offenses in DCDC referrals. Possession with intent to deliver has gone from 2% of referrals to 19%. In 2004 there were also referrals for other felonies including prescription fraud, maintaining a drug dwelling and burglary.</p>

Motion: (revenue/expenditure/text effect)	Increase revenues by \$117,500 in the Treasurer's Office, Investment Income, to reflect greater revenue in 2006

Org	Object	DESCRIPTION:	Amount
TREAS	84520	Interest Income	\$117,500
Intent/Justification			
<p>The amount of interest income increased by 127% between 2004 and 2005, from \$1,043,222 in 2004 to \$2,373,122 in 2005. The proposed budget projects revenue of \$2,350,000 in interest income. This budget amendment increases the amount of budgeted interest income by five percent, or \$117,500.</p>

Motion: (revenue/expenditure/text effect)	Increase expenditures by \$20,000 in the County Board Office, Audting Services-POS line.		
Program/Personnel Effect:	Increasing the allocation for Auditing Services by \$20,000 will bring the total allocation for this activity to \$85,000 and allow the Board to complete two audits in 2006 as part of the Board's legislative oversight of county programs.		
Line Item Detail (not required for introduction, attach additional listing if necessary)			
Org	Object	DESCRIPTION:	Amount
COBOARD	30390	Auditing Services - POS	\$20,000
Intent/Justification			
<p>One responsibility of the County Board is to exercise legislative oversight over county programs. Over the past 10 years, the County Board has retained consultants to conduct program audits, including the audit of jail medical services and, most recently audits of the Department of Planning and Development and the on-going audit of the Department of Human Services' Self-Directed Services program. The cost of these evaluations has increased over time. The proposed budget includes \$65,000 for auditing services. This budget amendment increases expenditures for auditing services by \$20,000, which should allow the County Board to conduct two audits during 2006.</p>

Intent/Justification			
<p>Res 115, 2005-2006 endorses a manure digester feasibility analysis. Among the issues to be examined by the study oversight committee is the potential for a public organization and management of a Regional Handling Facility Initiative. Planning studies for similar long-term infrastructure projects (e.g. Badger Prairie Health Care Center, Huber/AODA Facility) have received funding through the Capital Budget. This initiative would be similarly funded through borrowing proceeds. By moving the manure digester study to the capital budget, the carryforward for this line is eliminated reducing GPR by \$71,000.</p> <p>This amendment is a variation on amendment EANR-1.</p>

Program/Personnel Effect:	The funding provided in the capital budget would be used for a study of the document and workflow in the various divisions of the Planning Department, especially in the Zoning Division. The audit noted that such a system would be a major investment. It would be an appropriate capital budget item.</p>
