Program: Human Services Capital Budget Administration

Motion:
Increase capital project expense by $15,812 to replace the Human Services Bobcat. The purchase price is $33,093 minus a trade in of ($11,000) and a state discount of ($14,206.68) for a total of $14,762.32. This machine does need the addition of a high power blower at a cost of $1,050 to move the snow on the lower sidewalk up on the hill when there is heavy snow. The new bobcat will be safer, less overall maintenance and will allow staff to complete snow removal more efficiently. The total cost is $15,812.

Intent/Justification

The Human Services 1999 Melroe Bobcat needs to be replaced as it has cost over $3,000 in the past 2 years in repairs and these costs will only go up. The current Bobcat has a floor that is rusting out, a right foot pedal that has been repaired several times, is losing power to lift the bucket and pulls to the right when driven. The roof leaks after several caulking repairs, the wiper motor is breaking continuously which is a huge safety issue. Lastly, the main disconnects for the brush/bucket attachments is manual and now requires 2 people to connect and disconnect because of it being so tight. Bobcat of Madison has provided a quote that will give HS a good trade in on the current 1999 Melroe, given the state contract discount. The plus for this purchase is that all of the attachment equipment will work with the new bobcat so a new brush, bucket or fork is not necessary at this time.
