<b>Narrative Page:</b>	page 640		
<b>Department:</b>	Land and Water Resources		
<b>Program:</b>	Capital Budget		
<b>Motion:</b> (revenue/expenditure/text effect)	Increase expenditures and borrowing proceeds by \$500,000 to increase funding for the PARC program.		
<b>Program/Personnel Effect:</b>			
<b>Line Item Detail (not required for introduction, attach additional listing if necessary)</b>			
<b>Org</b>	<b>Object</b>	<b>DESCRIPTION:</b>	<b>Amount</b>
CPLWRESC	58045	Partnership for Recreation and Conservation	\$500,000
CPLWRESC	84974	Borrowing Proceeds	\$500,000
<b>Intent/Justification</b>			
<p>The funding level proposed in the 2013 budget is the same as in 2012. The program could not accommodate many worthy projects in the 2012 cycle, so it is important to increase funding so more projects can be funded in the 2013 grant cycle.</p>

<b>Motion:</b> (revenue/expenditure/text effect)	Increase expenditure and borrowing proceeds by \$175,000 to develop and fund a Wayfinding System for the Dane County Bicycle Network.		
<b>Program/Personnel Effect:</b>	<p>This amendment provides an additional \$175,000 in expenditures and borrowing proceeds to develop and fund a Wayfinding System for the Dane County Bicycle Network.</p> <p>This amendment will allow Dane County to work in partnership with local units of government, advocacy and user groups to develop a uniform wayfinding system for the bicycle network in Dane County. The wayfinding system may include:</p> <ul style="list-style-type: none"> <li>-A mobile application that identifies the bicycle network and facilities</li> <li>- Identification and naming system for bicycle trails, paths and routes</li> <li>- Uniform signage and maps that can be used throughout the bicycle network</li> <li>- A bicycle network "brand" so that users can quickly identify bicycle routes and facilities</li> <li>- On- ground quick guides for popular routes</li> </ul>		
<b>Line Item Detail (not required for introduction, attach additional listing if necessary)</b>			
<b>Org</b>	<b>Object</b>	<b>DESCRIPTION:</b>	<b>Amount</b>
		Development of a Bicycle Wayfinding System for Dane County	\$175,000
		Borrowing proceeds	(\$175,000)
<b>Intent/Justification</b>			
<p>Bicycling for transportation and recreation continues to increase in popularity. The <i>2012-2017 Dane County Parks &amp; Open Space Plan</i> identifies trails as the most frequently requested recreation facility.</p> <p>Over the past decade, an extensive network of bicycle/pedestrian trails and bicycle-friendly transportation corridors has developed throughout Dane County. This bicycle network includes everything from state trails to designated bike routes on local roads. Users currently navigate through the bicycle network using ad hoc methods and it is difficult to understand and fully appreciate the various route options that are available. A wayfinding system would provide a uniform method to help users seamlessly navigate and fully utilize the system.</p>

<b>Motion:</b> (revenue/expenditure/text effect)	Expenditures and borrowing proceeds be increased by \$2.5 million in the Office of the County Clerk, Elections Division to cost share with local governments for 50% of the cost of new voting machines .		
<b>Program/Personnel Effect:</b>	This amendment increases expenditures and borrowing proceeds for voting machines. There are 189 machines and the cost of each is approximately \$12,000. Additionally, new software and computers would cost appoximately \$75,000. Municipalities would pay for 50% of the cost of machines , with a few exceptions in areas with very few electors.

<b>Motion:</b> (revenue/expenditure/text effect)	To add the following language to Sub.1 to Res. 134: After many years of development, Dane County is currently transitioning to a new Computer Aided Dispatch system that can utilize data from GPS or Global Information Systems (GIS) to improve emergency response time for police fire, and emergency medical services. Many of these agencies, including the all of the ambulances in the Dane County EMS System, currently use this technology to help ensure the most appropriate, closest emergency resources are dispatched to critical medical emergencies. In the interest of improving emergency response time and efficiency and full utilization of the county's new CAD System, the Sheriff's Office is directed to install GPS/GIS technology in all Dane County Sheriff's squad cars. The capital budget includes a carry forward of \$27,000 to accomplish this task. Currently, 911 dispatchers in many instances have to manually call sheriff's deputies on the radio to determine their location, prior to determining which deputy is closest to a particular incident.

<b>Motion:</b> (revenue/expenditure/text effect)	To add the following language to Sub.1 to Res. 134: The Sheriff's Office is currently conducting a space needs analysis of the Public Safety Building. The Capital Budget includes two projects that will allow the Department of Emergency Management and the Medical Examiner's Office to move out of the Public Safety Building and into more suitable and updated facilities. This will create capacity in the Public Safety Building for special needs space and additional inmate housing. In an effort to coordinate facility use and planning, the Sheriff's Office shall work with the Department of Administration, County Executive's Office, and a representative from the Public Protection and Judiciary Committee as designated by the Committee Chair to review the recommendations of the space study as well as other non-facility related options that could increase housing capacity and/or decrease the demand for inmate housing. The goal of these recommendations is to create sufficient capacity in the jail system to eliminate the need for inmate housing at the Ferris Center.

<p>For well over a century, fingerprinting has been the accepted verifiable method of personal identification. Recently, there have been tremendous technological advances in the science of fingerprinting. Live scan fingerprinting is a technological development of forensic science that makes it possible for a fingerprint to be taken electronically and sent to law enforcement for identification. Live scan fingerprinting is inkless and captures the fingerprint digitally on a computer. The prints are then forwarded electronically to the FBI, Department of Justice or another authorized agency for a criminal background check or for other purposes.</p>

<b>Program/Personnel Effect:</b>	The current squad video system, Digital Patroller 1, is eight years old, no longer under a maintenance contract, and not supported by the manufacture. Maintenance issues and lack of replacement parts cause the Digital 1 Patroller to fail resulting in loss of critical video evidence. The Digital Patroller 1 squad video system has reached the end of it's useful life and requires replacement.		
<b>Line Item Detail (not required for introduction, attach additional listing if necessary)</b>

CPSHRF	58672	Squad Video System Replacement	\$407,000
CPSHRF	84974	Borrowing Proceeds	\$407,000
<b>Intent/Justification</b>			
<p>Squad video systems are a vital tool for collecting evidence and are required by law, for many cases. Squad video systems allow Deputies the ability to interview suspects in their patrol car, eliminating a trip to the Precinct to conduct interviews. Squad video cameras provide real time, factual recording of incidents that can be used as evidence and to investigate complaints against Deputies. Video cameras enhance the accuracy of report writing, the establishment of truth, deter abuses by Deputies, limit complaints against Deputies about alleged abuses, and help restore and build confidence in the fairness of policing efforts.</p>

There are no existing county facilities that can meet the needs of the Medical Examiner's Office as it expands its role in serving the needs of Dane County.

<b>Intent/Justification</b>			
<p>This facility is needed for two reasons. First, as the caseload for the medical examiner has increased, the current facilities at the PSB are becoming inadequate. Second, moving the medical examiner's office to another location other than the PSB will free up space on the second floor of the PSB for use for a future special needs facility operated by the Sheriff's Office. <b>Department:</b>	Highway		
<b>Program:</b>	Fleet & Facilities- Capital		
<b>Motion:</b> (revenue/expenditure/text effect)	To increase expenditures and borrowing proceeds by \$1,300,000 for land acquisition and for acquisition and installation of photovoltaic panels for the East Highway Garage. The 2012 Capital Budget includes funds for construction of a highway garage at the landfill site. This provides funds to pursue a site adjacent to the landfill due to the current plan to expand the landfill. Also, this will provide funds for installation of solar panels to provide part of the energy for the facility.

<b>Motion:</b> (revenue/expenditure/text effect)	Increase expenditures and borrowing proceeds by \$40,000 to fund the beginning of phase 2 of the remonumentation project		
<b>Program/Personnel Effect:</b>			
<b>Line Item Detail (not required for introduction, attach additional listing if necessary)</b>			
<b>Org</b>	<b>Object</b>	<b>DESCRIPTION:</b>	<b>Amount</b>
CPPLNDEV	58309	Remonumentation Project	\$40,000
CPPLNDEV	84974	Borrowing Proceeds	\$40,000
<b>Intent/Justification</b>			
<p>This amendment restores \$40,000 to the 2013 capital budget to initiate the second phase of the Department of Planning and Development's multi-year Public Land Survey System (PLSS) Remonumentation Project. The first phase is currently underway in 2012 and will extend into the first half of 2013. The first phase of the project is a pilot effort to check and replace deteriorated monuments of the PLSS survey infrastructure in the town of Cottage Grove. In order to avoid loss of momentum on the project and a six-month lag time between completion of Phase 1 and the start of Phase 2, this amendment is proposed to at least enable completion of survey remonumentation for an additional township in 2013. \$40,000 is the current cost estimate of survey monument verification and replacement per township based on data and information derived thus far from Phase 1. The ultimate goal of the larger project is to complete the entire county over a period of 8 to 12 years, depending on subsequent progress and capital budget availability. The project will require recurring annual capital appropriations over this duration.</p>

<b>Motion:</b> (revenue/expenditure/text effect)	move to increase expenditures and borrowing proceeds \$400,000 in the Capital Budget to acquire planning software.		
<b>Program/Personnel Effect:</b>			
<b>Line Item Detail (not required for introduction, attach additional listing if necessary)</b>			
<b>Org</b>	<b>Object</b>	<b>DESCRIPTION:</b>	<b>Amount</b>
CPPLNDIV	New	Planning Software	\$400,000
CPPLNDIV	84974	Borrowing Proceeds	\$400,000
<b>Intent/Justification</b>			
<p>Acquire planning software to assess the impacts of different development scenarios. The software will provide easily comparable and understandable data on a wide range of environmental, economic, social, and health impacts of development. The tool will assist planning staff in county-wide comprehensive planning and enable them to provide towns, cities and villages alike support in their respective planning efforts, whether community-wide or by parcel. Purchase of the software is contingent on a planning department needs assessment, including an assessment of available and required staffing resources, and buy-in from local communities.</p>
