\*The fields marked with an asterisk (\*) do not have to be completed. The information is helpful but not required.

**1. What is the difference between a “certified” and an “uncertified” copy of a death certificate?**

A **certified** copy of a death certificate issued by the State Vital Records Office will have a raised seal, will show the signature of the State Registrar, and will be printed on security paper. A certified copy may be required to settle an estate or to claim insurance benefits.

State law restricts who may obtain a **certified** copy of a death certificate. A **certified** copy can only be issued to those people with a “direct and tangible interest” (section II, categories A – C) which means the following people:

- An immediate family member defined as a parent (whose name is on the death certificate and whose parental rights have not been terminated), current spouse, brother, sister, grandparent, child, or current domestic partner (Declaration of Domestic Partnership registered in the Wis. Vital Records System under Chapter 770, Wis. Stats.) of the subject of the record (section II, category A).
- NOTE: Grandchildren, step-parents, step-children, step-brothers and step-sisters can only obtain certified copies as section II, categories B and C.
- A person authorized in writing by one of the above. A written and notarized authorization must be attached to this application and the authorization must clearly state the relationship of the authorizing party to the subject of the record (section II, category B).
- A person who can demonstrate that the death certificate is required to determine or to protect a personal or property right (section II, category C). Proof is required.

If you do not meet one of the above criteria, you cannot receive a **certified** copy of a death certificate.

An **uncertified** copy will contain the same information as a certified copy but it is **not** acceptable for legal purposes, such as claiming insurance benefits (section II, category D).

- For pre-2003 death certificates, an **uncertified** copy of a death certificate will contain the same information as a certified copy.
- For death certificates 2003 to the present, only persons named in categories A – C on the previous page may have access to information which includes cause of death.
